INSTRUCTION MANUAL

• A preliminary draft copy of the User’s Manual follows this cover page.

• The User’s Manual will have the following text added to it:

"NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

. Reorient or relocate the receiving antenna.

. Increase the separation between the equipment and receiver.

. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

. Consult the dealer or an experienced radio/TV technician for help."

The text on the following two pages will be added for SAR Data, related to FCC requirements.
This section contains important information on the safe and efficient operation of your mobile device. Read this information before using your mobile device.

**Operational Precautions**

- **Turn OFF the mobile device immediately if you have any reason to suspect that it poses a danger to you or others**.
- **DO NOT carry the mobile device in the breast pocket.**
- **If you have a pacemaker, consult your physician before using this device.**
- **If you use any other personal medical device, consult your physician or the manufacturer of your device to determine if it is adequately shielded from RF energy.**
- **Operational Warnings**
  - **When you are in such an area, turn off your mobile device, and do not remove, install, or charge batteries.** In such areas, sparks can occur and cause an explosion or fire.
  - **Be alert for potentially explosive atmospheres**. These may include areas such as fueling stations, above or near storage tanks, or chemicals used in the manufacture of products such as plastics, wood, rubber, or paint. Nearly every electronic device is subject to RF energy interference from these conditions so require.
  - Pull off the road and park before making or answering a call if driving conditions so require.
  - Give full attention to driving and to the road. Using a mobile device may be distracting. Discontinue a call if you can't concentrate on driving.

- **Driving Precautions**
  - Check the laws and regulations on the use of mobile devices in the area where you are driving. In an aircraft, turn off your mobile device whenever instructed to do so by airline staff.
  - Be aware that even when turned off, mobile devices may still interfere with other electronic equipment in an aircraft.

- **Choking Hazards**
  - Your mobile device and its accessories may present a choking hazard to small children. Keep your mobile device and its accessories out of the reach of small children.

- **Hearing Aids**
  - Present scientific information does not indicate the need for any special precautions when using mobile devices with hearing aids.

- **Symbol Definition**

**Recycling Information**

Motorola encourages customers to recycle used batteries. For information on how to return your used batteries, visit http://www.motorola.com/recycle/phones/whyrecycle.html or contact your local waste disposal service.

**Information from the World Health Organization**

The World Health Organization (WHO) has stated that present scientific information does not indicate the need for any special precautions when using mobile phones. The International Commission on Non-Ionizing Radiation Protection (ICNIRP) has concluded that there is no proof that using mobile phones is dangerous for health.

**When you repetitively perform actions such as pressing keys or entering text, the hands, arms, shoulders, neck, or other parts of your body. If you continue to use your mobile device in this manner, your body parts may break if the product is dropped on a hard surface or receives a substantial impact.**

**Choking Hazards**

**Do not throw your battery or mobile device in the trash.** Do not put batteries or mobile devices near heat, fire, or water. Contact your local regulatory authorities for more information.
